Class No	Java Fundamentals Module
1	Java - What | Why | How , Java internals JVM | JRE | JDK
2	Installation
3	Java - Printing(Output), variable , data types
4	Java i/o - reading inputs in Java
5	Number system - Introduction to decimal and binary and their interconversion
6	Java operators and their precedence and associativity.
7	Java conditionals if /else/ switch
8	Java loops for/while/do-while
9	Problems on Java loops - 1
10	Problems on Java loops - 2
11	Java - Object and Class Introduction
12	Java - Methods
13	Pass by Value, Pass by ref, scope of variables
	Test
14	Arrays - 1 (basics)
15	Arrays - 2 (basics)
16	Patterns of questions asked in Array - 1
17	Patterns of questions asked in Array - 2
18	Patterns of questions asked in 2D Arrays - 1
19	Patterns of questions asked in 2D Arrays - 2
20	Patterns of questions asked in 2D Arrays - 3
21	ArrayList in Java Collection Fraemwork
	Test
22	Time and Space Complexity
23	Problems on Time and Space Complexity
